This MOU provides the broad framework for cooperation and support between the Red Cross and Edgewater in Bergen County in assisting individuals, families and communities who have been or could be impacted by disaster or an emergency. It also provides the descriptions of readiness and response activities, such as planning, training, exercising and resourcing, and the clarification of roles and responsibilities of the Red Cross and Edgewater in Bergen County to the community and other agencies.

B. American Red Cross

Founded in 1881, the Red Cross is the nation's largest nonprofit disaster management organization. As part of a worldwide movement that offers neutral and impartial humanitarian care, the Red Cross is a non-governmental organization that mobilizes communities to aid people affected by or at risk of disasters with the aim of preventing and alleviating suffering. We do this by recruiting, training, and equipping volunteers throughout the country. The Red Cross provides disaster cycle services without regard to race, color, national origin, religion, gender, age, disability, sexual orientation, citizenship or veteran status. It follows the Fundamental Principles of the International Red Cross and Red Crescent Movement [See Attachment B]. The Red Cross is closely integrated into community preparedness, response, and recovery efforts, including those of federal, tribal, state and local government and other non-government organizations.

The Red Cross is chartered by the United States Congress to provide humanitarian services and provides disaster cycle services pursuant to its Bylaws and other internal policies and procedures as well as its Congressional Charter (USC 36 §300101-300111). In the Charter, Congress authorized the Red Cross "to carry out a system of national and international relief in time of peace and apply that system in mitigating the suffering caused by pestilence, famine, fire, floods, and other great national calamities, and to devise and carry out measures for preventing those calamities."

Further, the 2020 Memorandum of Agreement between FEMA and the Red Cross recognizes the national level roles and responsibilities designated to the Red Cross. Located in Washington,

DC, the national headquarters for the Red Cross is responsible for implementing policies and procedures that govern such Red Cross activities and provides administrative and technical oversight and guidance. Additionally, each region has certain authorities and responsibilities for carrying out Red Cross disaster preparedness, response and recovery activities, delivering local Red Cross services, and meeting corporate obligations within the territorial jurisdiction assigned to it. Each region is familiar with the hazards of the locality and surveys local resources for personnel, equipment, supplies, transportation, emergency communications, and facilities available for disaster relief. Regions also formulate cooperative plans and procedures with local government agencies and private organizations for relief activities should a disaster occur.

III. Methods of Cooperation
